Description	The Cisco SPA 504G 4-line IP Phone provides small businesses a rich user experience with a monochrome backlit display for ease of use, aesthetics, and on-screen applications; HD voice for unsurpassed voice clarity; enhanced full duplex speaker phone for clear conversations across the desk; and an integrated switch port to connect your computer.	The Cisco SPA514G 4-Line IP Phone with 2-Port Gigabit Ethernet Switch provides advanced voice and data communications features small businesses need to stay productive and responsive. With hundreds of features and configurable service parameters, the Cisco SPA514G addresses the requirements of traditional business users while building on the advantages of IP telephony.	The Cisco SPA525G2 IP phone can easily grow with your business. New features can be added to the phone over time via firmware updates. New employees or employees who need to move locations can simply plug in their preconfigured phones anywhere on the network, and the network will recognize the change. The phone also provides the option for wireless network connectivity, providing unrestricted placement.	An entry level UC business media phone designed specifically for cubicle workers and small business owners, complete with voice and integrated applications.	A color mid-range UC business media phone for today's office workers and call attendants delivering crystal clear communications.	A performance business media phone delivering best-in-class desktop and unified communications for busy professionals.	A premium UC business media phone integrating real-time presence, advanced telephony, and business applications into a modern communications experience.	The first business media phone combining advanced IP telephony, one-touch video and integrated business application into a seamless, lifelike experience.	The SIP-T46G is a revolutionary IP Phone for executive users and busy professionals.	The Yealink T48G is a 16-line Gigabit SIP phone ideal for heavy phone use and traffic.	Yealink's T49G strikes the perfect balance between simplicity and sophistication, enabling high quality communications for business executives and professionals alike.
