

SMART CONNECTOR

Smart Choice is committed to bringing convenient solutions to you and your business. **Smart Connector** allows you to extend your PC to your desk phone giving you access to your phone's display screen using your mouse and keyboard.

Smart Connector gives you the ability to transition seamlessly from your computer monitor to your phone's display screen simply by dragging your mouse over. Using Smart Connector, you can click through menus, answer calls and copy and paste information from your PC directly to your phone. With Smart Connector, you no longer have to waste time manually inputting user's information or numbers into your phone allowing you to operate more efficiently and seamlessly.

BENEFITS

• **Navigate Through Menus**

Easily utilize the mouse to click through menus, directories and options.

• **Input, Copy & Paste Text**

Use the keyboard to enter information such as phone numbers, contact info and phone settings. You can even copy and paste information directly from your PC to your phone.

• **Work Seamlessly**

Answer and operate your phone calls without ever having to take your hand off your mouse. You can continue to work from your computer without the hassle of transitioning to your phone to make/receive phone calls.
