

Connecting Yealink to WiFi

Procedure to connect to Wi-Fi:

1. Power on the phone for the first time.
2. Tap on the **Menu** icon.
3. Scroll to the **Basic Settings** section and tap on **Wi-Fi**.
4. Select **Easy Connection**.

Note: The phone will search for available wireless network and display.

5. Select the desired **Wi-Fi network**, and tap **Connect**.
6. Enter the password and tap on **OK**.

Allow a few seconds for the phone to connect to your Wi-Fi connection.

When the phone is connected to a wireless network, the Wi-Fi icon  will display in the status bar.
